VONMÄHLEN
Northern Germany

LESS FOOTPRINT. MORE IMPACT.

At Vonmählen, sustainability is a lived responsibility. Each year, we invest with great dedication in impactful measures such as the use of recycled materials, environmental certifications, partnerships with WWF, and other initiatives that position us as a leader in this field.

To ensure these efforts remain transparent, long-term, and effective, we are introducing a **sustainability contribution of 2%** on our product deliveries. This contribution will be itemized separately on our invoices and will be allocated entirely to verified and documented sustainability work.

With this initiative, we aim not only to take responsibility but also to strengthen our partnership with you—pursuing a shared commitment to a future-oriented economy.

TOP 15 MOST SUSTAINABLE SMEs WORLDWIDE. PROVEN.

We're proud to be among the Top 15 SMEs worldwide and Top 5 in Europe that have been recognized as Sustainability Leaders by EcoVadis. This award recognizes few of the smalland-medium sized rated companies across the globe who achieved exceptionally high performance in their EcoVadis assessment in 2024. This reflects our relentless commitment to environmental responsibility and continuous improvement.

WINNER

Recycled materials

Global Recycled Standard

This allroundo, eco contains 6% GRS certified recycled post-consumer polycarbonate (PC), 24% GRS certified recycled post-consumer acrylonitrile butadiene styrene (ABS), 11% GRS recycled post-consumer thermoplastic polyurethane (TPU), 20% GRS certified recycled post-consumer thermoplastic elastomer (TPE), 5% GRS certified recycled post-consumer copper, certified by Inventa 22084
